Hardy Ornamental BERRIED PLANTS

FOR THE GARDEN

Symphoricarpos racemosus

Phone, Chestnut Hill 2077

Phone, Whitmarsh 1950

NOT all plants are endowed with gorgeous floral envelopes or possess the subtle gift of fragrance, but where these attributes have been withheld, the plant invariably has been crowned with some other characteristic that brings it into marked favor at some season of the year. It is a pleasure, therefore, to present to our customers a select list of colorful Hardy Berried Plants that will add interest to your grounds, beauty to the landscape, and afford much provender for our feathered friends, the birds.

FLOURTOWN, PENNSYLVANIA

Medium and Low-Growing Shrubs

Aronia arbutifolia. *Red Chokeberry.*

Bears quantities of red berries. Fine for winter effect. 2 to 3 ft. \$0 75
3 to 4 ft. 1 00

Aronia melanocarpa. *Black Chokeberry.*

Lustrous ebony berries in fall and early winter. Fine for the birds. 3 to 4 ft. 1 00

Berberis koreana. *Korean Barberry.*

Firm scarlet berries of good size. A handsome shrub.
2 to 3 ft. 1 00
3 to 4 ft. 1 50

Berberis purdani. *Purdani's Barberry.* (New.)

A new scarlet-berried species of rare beauty.
1½ ft. 1 00
2 to 2½ ft. 2 00

Berberis sinensis. *Chinese Barberry.*

Large panicles of persistent, scarlet fruit.
2 to 3 ft. 1 00
3 to 4 ft. 1 50

Berberis staphania. *Stapf's Barberry.*

A comparatively new variety, with fine, graceful foliage and berries of a pinkish hue.
1 to 1½ ft. 1 00

Berberis thunbergii. *Japanese Barberry.*
(Large-fruited) (Selected.)

A particularly large-fruited variety of the old favorite.
1½ to 2 ft. 1 00

Berberis thunbergii. *Japanese Barberry.*

Everybody's favorite plant for a variety of uses. Persistent bright red fruits for winter effect. 1 to 1½ ft. 50
1½ to 2 ft. 75
2 to 2½ ft. 1 00

Berberis wilsonae. *Wilson's Barberry.*

Similar to *B. staphania* but a more spreading plant. Fine for grouping. 1½ to 2 ft. . . \$1 00

Berberis, Wilson's Species. (New.)

A very beautiful and rare Barberry, bearing quantities of coral-pink berries in late fall and early winter. 1½ ft. 1 50
2 to 2½ ft. 2 00

Callicarpa purpurea. *Beauty Berry.*

A graceful shrub with numerous lavender-colored berries that ripen late. 2 to 3 ft. . . 1 00
3 to 4 ft. 1 50

Celastrus orbiculatus (articulatus). *Japanese Bittersweet.*

A rambling viny shrub whose attractive scarlet and gold capsular fruit makes a delightful indoor decoration for the winter months. 2 to 3 ft. 75
3 to 4 ft. 1 00

Celastrus scandens. *American Bittersweet.*

Very similar to the above, with large fruit but not quite so highly colored. 3 to 4 ft. . . 75

Cornus paniculata. *Gray Dogwood.*

A graceful shrub whose white flowers are followed by white berries on red stems.
3 to 4 ft. 75

Cornus sanguinea. *Blood Twig Dogwood.*

Fine for winter effect on account of its colored stems. Bears black berries which are eaten by the birds. 3 to 4 ft. 75
4 to 5 ft., bushy 1 00

Cornus stolonifera. *Red Osier Dogwood.*

Attractive light blue fruit, but chiefly valued for its colorful bark in winter.
3 to 4 ft. 75

Berberis thunbergi

Lonicera morrowi

Rosa rugosa

MEDIUM AND LOW-GROWING SHRUBS, continued

***Cotoneaster divaricata*. Spreading Cotoneaster.**

A beautiful shrub with glossy green foliage and persistent red fruit.

2 to 3 ft. \$1 50
3 to 4 ft. 2 00

***Cotoneaster francheti*. Franchet Cotoneaster.**

Semi-upright, with evergreen foliage and orange-colored fruits. Pot-grown plants . . .

1 00

***Cotoneaster horizontalis*. Rock Cotoneaster.**

Low, almost prostrate, and nearly evergreen shrub whose branchlets are crowded with small red berries. Strong potted plants . . .

2 00

***Cotoneaster multiflora*. Graceful Cotoneaster.**

Very desirable shrub for specimen planting, having graceful, arching branches studded with red fruits. 2 to 3 ft. 1 00
3 to 4 ft. 1 50

***Cotoneaster rotundifolia*. Round-leaf Cotoneaster.**

Somewhat similar to *C. horizontalis*, but with round, box-like leafage. Bright fruit. A good rock-garden plant. Pot-grown plants . . .

1 00

***Cotoneaster salicifolia*. Willow-leaf Cotoneaster.**

Strong, upright grower, willowy. Splendid red fruit display. 4 to 5 ft. 3 00

***Cotoneaster simonsi*. Simon's Cotoneaster.**

Erect-growing; almost evergreen. Red fruits. 2 to 3 ft. 1 50
3 to 4 ft. 2 00

***Cotoneaster microphylla thymifolia*. Thyme Rock Spray.**

Leafage resembles thyme. Fine for rock gardens. Small red fruits. Pot-grown plants . . .

1 00

***Daphne mezereum*. Garland Flower.**

Rare, low-growing plant for the rock garden, giving highly fragrant flowers in early spring and attractive scarlet fruit later in the year. 1½ to 2 ft.; 2 50

***Elæagnus longipes*. Russian Olive.**

An unusual shrub with green and silver foliage, bearing edible fruit of a pale reddish color that ripens in summer.

2 to 3 ft. 1 00
3 to 4 ft. 1 50

***Elæagnus umbellata*. Silver Thorn.**

Stronger growing than the preceding and ripening its fruit in late autumn. Flowers fragrant; pink berries. 3 to 4 ft. \$1 00
5 to 6 ft. 2 00

***Euonymus alatus*. Winged Euonymus.**

Odd corky bark, rich autumn foliage, and small scarlet fruit. 3 to 4 ft. 2 00
4 to 5 ft. 3 00

***Euonymus colorata*. Red-leaved Euonymus.**

A half-trailing evergreen shrub, whose leafage turns a rich red in winter. Bears orange fruit at maturity. Fine for rock gardens. Pot-grown plants 1 00

***Euonymus radicans acutus*. Sharp-leaf Winter Creeper.**

A strong, shrubby form resembling *E. radicans*, but more sharp-pointed leafage. Evergreen. Produces orange, capsular fruit when allowed to grow freely. 1½ to 2 ft., bushy 2 00

***Euonymus radicans vegetus*. Evergreen Bittersweet.**

An evergreen climbing or trailing plant suitable for covering walls, tree-trunks, etc. It is very hardy and provides clusters of beautiful orange-scarlet capsules in winter. 3-yr. plants 1 00

***Euonymus sieboldianus*. Winter Burning-Bush.**

Very beautiful, almost evergreen shrub, bearing clusters of orange-red fruits that ripen quite late in the fall. 2 to 3 ft. 1 00
3 to 4 ft. 1 50

***Ilex verticillata*. Winterberry.**

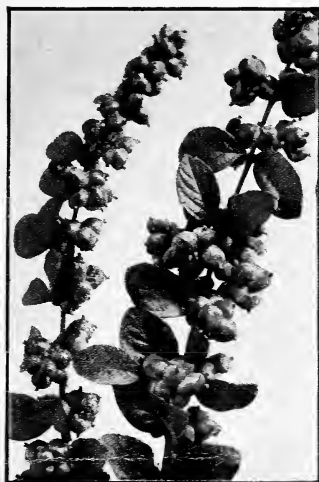

This is one of our native Hollies that drops its leaf in the fall, exposing a brilliant display of scarlet berries. 2 to 3 ft. 1 00
3 to 4 ft. 1 50

***Ligustrum ibota regelianum*. Regel's Privet.**

Finds much favor because of its clean, graceful foliage. It bears attractive purple-black berries that are very persistent. Makes an exceptionally protective plant for a bird sanctuary. 2 to 3 ft. 50
3 to 4 ft. 75

Rosa rugosa

Symphoricarpos vulgaris

Viburnum opulus

MEDIUM AND LOW-GROWING SHRUBS, continued

Lonicera nitida.

A beautiful, low evergreen shrub, suitable for rock gardens and sloping ground. Needs a little protection in winter. Small, straw-colored flowers; with purple berries.

1½ to 2 ft. \$2 00

Lonicera pileata. Privet Honeysuckle.

Similar to the above but with much longer leaf. Semi-prostrate growth. 1 to 1½ ft.

1 50

Lycium chinense. Chinese Matrimony Vine.

A rather trailing, quick-growing shrub that produces bright scarlet berries in great quantities right through the late summer and fall.

2 to 3 ft. 50
3 to 4 ft. 75

Mahonia aquifolium. Holly Grape.

Closely related to the barberry but has beautiful, holly-like evergreen foliage, yellow flowers, and small grape-like fruit. Will thrive in partial shade. 1½ to 2 ft.

2 00

2 to 2½ ft. 2 50

Pyracantha coccinea lalandi. Laland Fire-thorn.

This wonderful evergreen thorn makes a striking object of beauty in fall and early winter with its persistent, glowing orange fruit.

Strong pot-grown plant 1 50
1½ to 2 ft. 2 00
4 to 4½ ft. 5 00

Rosa rugosa. Japanese Rose.

Sweet-scented single flower in red, white, and pink, followed in the fall by large clusters of scarlet fruit. 2 to 3 ft. 50
3 to 4 ft. 75

Rhodotypos kerrioides. Jet Bead.

This shrub has handsome foliage, pure white flowers, and bears persistent heads of jet-black, shiny fruit. Fine plant for the bird sanctuary. 2 to 3 ft. 75
3 to 4 ft. 1 00

Symphoricarpos racemosus. Snowberry.

An old-fashioned shrub, still very popular, that bears numerous clusters of pure white fruit in early winter. 2 to 3 ft. 50
3 to 4 ft. 75
4 to 5 ft. 1 00

Symphoricarpos vulgaris. Indian Currant.

The red counterpart of the Snowberry, with smaller and much more persistent fruits.

3 to 4 ft. \$0 75

Vaccinium corymbosum. Blueberry.

Fine edible fruit in summer and rich leaf coloration in fall. 2 to 3 ft. 2 50
3 to 4 ft. 3 50

Viburnum cassinoides. Witbe-Rod.

Clean, attractive foliage; heads of creamy white flowers, followed by mauve-colored berries. 2 to 3 ft.; 75
3 to 4 ft. 1 00

Viburnum dilatatum. Linden Viburnum.

Very valuable in landscape plantings because of its beautiful clusters of red fruits.

2 to 3 ft. 1 50
3 to 4 ft. 2 00

Viburnum opulus. High-Bush Cranberry.

Beautiful shrub with large red fruits that last through the winter. 2 to 3 ft. 75
3 to 4 ft. 1 00

Viburnum tomentosum. Japanese Single-flowered Snowball.

One of our most valuable shrubs for giving a trinity of beauty in leaf, flower, and fruit. The latter is not persistent. 2 to 3 ft. 75
3 to 4 ft. 1 00

Viburnum wrighti. Wright's Viburnum.

Probably one of the very best for winter fruiting display as the very persistent red berries are produced in abundance.

2 to 3 ft. 1 50
3 to 4 ft. 2 50

Vitis heterophylla. Cut-Leaf Grape.

A very pretty clean vine for walls, porches, and arbors. Its leaves are sometimes variegated with pink and white and the fruit is a porcelain turquoise-blue berry. 2-yr. 75

Zanthoxylum bungei. Prickly Ash.

An unusual shrub with beautiful glossy green pinnate foliage and branches armed with stiff thorns. It has odd black seed in pink capsules. 3 to 4 ft. 1 50
4 to 5 ft. 2 50

High-Growing Shrubs and Small Trees

Aralia spinosa. Hercules' Club.

A stately and attractive small tree, producing a tropical leafage effect. The creamy white flowers are followed by black berries on red stems. 5 to 6 ft. \$2 00
6 to 8 ft. 2 50

Citrus trifoliata. Hardy Orange.

The only real Orange-tree hardy for northern gardens in a protected position. Its fruit, which ripens in October, gives us a foretaste of sun-kissed Florida and California.

1 to 1½ ft. 75
2 to 3 ft. 1 50

Cornus alternifolia. Pagoda Dogwood.

A very handsome shrub, with elegant foliage, white flowers, and indigo-blue berries.

1½ to 2 ft. 50
3 to 4 ft. 1 00
4 to 5 ft. 1 50

Cornus florida. White Dogwood.

Well known to everyone for its beautiful white floral bracts in spring and its bright color in leaf and fruit in fall and winter.

4 to 5 ft. 1 50
5 to 6 ft. 2 00
6 to 8 ft. 3 00

Crataegus coccinea. Large-fruited Hawthorn.

Fine for specimen planting, giving a brilliant display of large red fruits in fall. 4 to 5 ft. 2 00
5 to 6 ft. 2 50
6 to 8 ft. 3 50

Crataegus cordata. Washington Thorn.

One of the best of our native Hawthorns, bearing a profusion of white flowers in spring and innumerable red fruits that remain on the tree all winter. 5 to 6 ft. 4 00

Crataegus crusgalli. Cockspur Thorn.

Splendid glossy foliage; branches well armed; crimson fruit. 4 to 5 ft. 1 50
5 to 6 ft. 2 50

Euonymus bungeanus. Winterberry Euonymus.

Graceful plant, bearing clusters of pink and orange-colored fruits. Very attractive. 4 to 5 ft. 1 50
5 to 6 ft. 2 00

Euonymus europæus. European Spindle Tree.

Bearing persistent orange-scarlet spindle shape fruit. 3 to 4 ft. 1 00
4 to 5 ft. 1 50

Euonymus hamiltonianus. (Rare)

Bold leafage which is shed early in the fall, disclosing lavender and orange-colored fruit. 4 to 5 ft. 2 00

Hippophae rhamnoides. Sea Buckthorn.

A rare and unusual plant that has a frosty appearance. Its orange-colored berries are persistent. 5 to 6 ft. 2 00

Lindera benzoin. Spicebush.

Fine for shaded places. Yellow flowers in early spring and red berries later in the year. 3 to 4 ft. 75

Lonicera kochiana. Winter-fruiting Bush Honeysuckle.

Large, spreading shrub whose branches are wreathed in sweet-scented flowers in summer and clothed with translucent red berries in fall and winter. 3 to 4 ft. 1 00
4 to 5 ft. 1 50

Lonicera morrowi. Bush Honeysuckle.

From May to August this beautiful shrub affords us an attractive flower and fruit effect. Fine for grouping and for large boundary plantings. 3 to 4 ft. \$0 75
4 to 5 ft. 1 00

Lonicera maacki podocarpa. Late Honeysuckle.

Wonderful shrub for specimen planting and grouping. Flowers white and yellow, followed by a winter display of red berries. 2 to 3 ft. 1 00
3 to 4 ft. 1 50

Lonicera tatarica. Tatarian Honeysuckle.

Large-growing shrub, with sweet-scented flowers, followed with bright red berries. 3 to 4 ft. 75
4 to 5 ft. 1 00

Magnolia kobus. Japanese Magnolia.

Small, slender tree, bearing white, sweet-scented flowers in spring and forming odd-shaped fruits with scarlet seeds. 5 to 6 ft. 10 00
8 to 9 ft. 12 00

Photinia villosa. Japanese Hawthorn.

In fall and early winter this plant glorifies itself with color in fruit and foliage. 3 to 4 ft. 1 50
4 to 5 ft. 2 00

Pyrus orientalis. Oriental Crabapple.

Beautiful as are Crabapples in spring, they also give us a colorful display in autumn and winter in red and yellow fruits. 5 to 6 ft. 3 00
6 to 8 ft. 4 00
8 to 9 ft. 5 00

Rhamnus. Buckthorn. New Winter-fruiting.

Strong-growing shrub for boundary plantings and groups. Fine leafage and with purple berries in quantity. 3 to 4 ft. 1 00
4 to 5 ft. 1 25

Sambucus pubens. Red-fruited Elder.

Bears clusters of scarlet berries. 2 to 3 ft. 75
4 to 5 ft. 1 00

Sorbus aucuparia. Mountain Ash.

Very beautiful small tree for specimen planting on lawns and for groupings. Clusters of white flowers in spring and orange berries in fall which remain on the tree for months. 5 to 6 ft. 2 00
6 to 8 ft. 3 00

Viburnum dentatum. Arrow-wood.

Splendid for grouping in shrubby borders. Good clean foliage and white flowers, followed by corymbs of purple berries. 3 to 4 ft. 1 00

Viburnum rhytidophyllum. Leather-leaf Viburnum.

A rare and striking evergreen shrub having foliage from 8 to 10 inches long, lustrous green on the upper side and covered with a soft covering of brown hairs on the under surface. Flowers white, followed by red berries. 2 to 3 ft. 3 00
3 to 4 ft. 4 00

Viburnum sieboldi. Siebold's Viburnum.

A very distinct kind with large, bold leafage, conspicuous heads of creamy white flowers, which in turn produce red and black fruit on red stems. 2 to 3 ft. 1 00
3 to 4 ft. 1 50
